### DETAILED ACTION

This office action is in response to the amendment filed 10/20/04. A new ground of rejection is introduced as necessitated by amendment.

#### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 8 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by Edward (USP 5945818).

As to claim 8, Edward discloses in figure 3 a control loop circuit comprising a main loop amplifier (Ccomp, REFF) having input and output, an output stage amplifier (78) having an input and an output, the output of the main loop amplifier connecting to the input of the output stage amplifier, the output of the output stage amplifier connecting to a variable load (36, 38. It is inherent that the load 36 and 38 are varied in responsive to temperature); a compensation means (46) for compensating an error signal (48); and a dynamic compensation control loop (67 and 188) including a digital signal processor (circuit 67 generates digital signal, thus, anticipates the limitation “digital signal processor”), the dynamic compensation control loop connecting the output of the main loop amplifier to the input of the main loop amplifier, the compensation means connecting the output of the output stage amplifier to the dynamic compensation loop, the dynamic compensation loop selectively cooperating with the compensation means to optimize the output of the output stage amplifier in response to the variable load.

As to claim 9, figure 3 shows that the compensation means comprises an error amplifier operative to generate an error signal to the main loop amplifier.

***Allowable Subject Matter***

3. Claims 1, 3-7, 10 and 12-18 are allowed.

***Conclusion***

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
